Doc Ref Number: 2023-004 EOI

With reference to the above-mentioned Document:

ADDENDUM #2

Question 1:

Looking for further clarification regarding the category “Short-term emergency sheltering to address unsheltered individuals.” From a budgeting perspective this number can be quite variable. What is a reasonable amount for this line item?

Answer 1:

Each organization should be establishing the number of people they intend to serve and provide the budget based on that number. There may be more need beyond the service they provide, but each submitting organization would establish the cap through their budget.
